

CONTINUUM OF CARE PROGRAM

Through our Continuum of Care program at SAVIS of Halton, we support and provide services for survivors of, and folks at risk of, human trafficking.

Case Management

Using **feminist principles and an anti-racist anti-oppression lens**, SAVIS offers comprehensive case management and trauma-informed support to survivors of human trafficking

Crisis Support

Our Crisis Support Workers assist survivors with safety planning, stabilization, short-term goal-setting and crisis intervention

Housing Support

SAVIS has crisis units for survivors of human trafficking. We also facilitate access to transitional housing and we support survivors in applying for housing subsidies, joining waitlists, finding private market rentals, or looking for safe, temporary shelters

Trauma Support

All SAVIS workers operate from a **trauma-informed perspective**. This means that we understand the effects of trauma in the brain, the body, and social interactions of survivors

System Navigation

We help survivors explore **social, health, and legal systems** in Halton and surrounding regions to help gain access to resources, opportunities, and appropriate services.

SURVIVOR TESTIMONIES

Below we have provided a few quote excerpts from folx who have accessed our human trafficking survivor program

"SAVIS has undoubtedly played a major role in the progression of my life; from accepting me and my circumstance in which brought me to them without ever doubting my ability to adapt and overcome, to housing me, helping me to go back to school and every little thing in between [...] Their support has allowed me the endless opportunities to begin healing and more so they have given me the tools, resources and safe environment to create a life for myself that I wouldn't have thought possible without them. Because of them I've had the privilege of being able to wake up knowing I'm safe and that they wholeheartedly believe in me to be so."

"SAVIS changed my life for the better. I went from being sexually exploited to being empowered by highly educated women. I only hoped by coming forward to your organization that I could possibly have some emotional support, stability and clarity. They provided me with that and so much more [...] I want to thank you with all my heart for changing my life for the better! You have given me freedom. Empowerment. Growth and Change. You have made me feel worthy again and have inspired me to be a better woman, for myself and my community. Thank you!"

"I became involved with SAVIS over 2 years ago when my counsellor at another agency referred me due to leaving a sexually abusive forced marriage. The support, tools and resources your organization provides is unbelievable. In December I received counselling where I was educating and healing myself. I learned a lot from the support that was provided. SAVIS stepped in again and advocated for me when my son was wrongfully apprehended. They helped me achieve shelter and advocated for me during the court where if it wasn't for their support I would not get my son back. They also advocated for me when I was able to get out of the shelter and in our first home. They bought us beds and other things that I could not afford. I have never felt alone with their support. I was transferred to another agency. I never received any support where your organization offered to come back into my life. They continue to help me become an independent member of society and I never feel alone. Your organization not only believes in survivors but helps support and goes to great lengths to advocate for them."
